- **RRP £120.00**

witschi Teslascope

W32158 £695.00

NEW
2010

Magnetism detection, demagnetisation and control with only one piece of equipment.

The new Teslascope performs the tests for a successful demagnetisation and detection of mechanical watches - in a single step.

The Teslascope includes a convenient, free standing support, allowing watches with or without bracelet / strap, movements and steel watch parts of small dimensions to be easily tested.

The evaluation of the measurements takes place by red and green LED's. The magnetisation degree is represented strengthen-dependently over several LED's. The user-friendly operation of this instrument and the easy interpretation of its measurement results will convince you.

NEW Baselworld 2010

COUSINS Wax Designing Ring Mandrel Kit

- Set of 19 die collets plus stand
- Full size 4 - 13 with stand, the aluminium sleeves are clearly marked and finished smoothly so that wax models can slide off.
- Design and produce your wax moulds with hands free ease.

M31886 £89.95

NEW 2010

The Wax Carver compact control box has a precision heat control dial for setting and maintaining temperatures from 95 degrees F (35 degrees C) up to 560 degrees F (294 degrees C).

Keep it low for delicate work or turn it up for fast wax removal or carving harder waxes. Its flashing indicator light shows heat intensity and reminds you to turn it off when not in use.

Only 64 x 51mm. It hardly takes up any workbench space. You can also mount it on a shelf with a piece of velcro.

The cords are all removeable for easy storage when not in use.

230 volt model comes with a transformer that has a UK plug and is CE rated.

The wax carver handpiece is lightweight and comfortable to hold with cork insulation to keep fingertips cool while working. The detachable handpiece cord is also lightweight and extremely flexible, perfect for the controlled movements needed for fine detailing in wax.

Brass tips are easy to clean and change, they are a great improvement over tips used on other models. You can alter the tips with a file or pliers and create your own custom shapes.

FOREDOM[®] Wax Carver
