

# Wax Carver

Order by Part Number Shown in Red

- K.WC-1** 115V
- K.WC-2** 230V
- with 3 tips (A-WT-2, A-WT-3, A-WT-4 shown with asterisk\*)
- K.WC-3** 115V
- K.WC-4** 230V
- with all 7 tips

**One Year Warranty**

The Wax Carver Compact Control box has a precision heat control dial for setting and maintaining temperatures from 95°F (35°C) up to 560°F (294°C). Keep it low for delicate work or turn it up for fast wax removal or carving harder waxes. Its flashing indicator light shows heat intensity and reminds you to turn it off when not in use. Only 2½" x 2" (64 x 51mm). It hardly takes up any workbench space. You can also mount it on a shelf with a piece of velcro, as the jeweler did in the photo below. The cords are all removable for easy storage when not in use.

230 volt models come with a transformer that has both European and British style plugs and is CE rated. **Specify K.WC-2 or K.WC-4.**

The Wax Carver Handpiece is lightweight and comfortable to hold with cork insulation to keep fingertips cool while working. The detachable handpiece cord is also lightweight and extremely flexible, perfect for the controlled movements needed for fine detailing in wax.

230V transformer

\* Tips included in WC-1 & WC-2. All 7 tips come in WC-3 and WC-4

### Brass Tips

Brass Tips are easy to clean and change, they're a great improvement over the tips used on other models. You can alter the tips with a file or pliers and create your own custom shapes. K.WC-1 and K.WC-2 come with three tips indicated at left with an asterisk. K.WC-3 and K.WC-4 come with all seven tips. Tips are also available separately.
