Biel, was founded in 1952 as a manufacturer of components for mechanical watches. Within only a few years, the company became a leading manufacturer and supplier of coin cells for watches and many electronic product areas.

Renata, "the Swiss power source"

- Leader in production technology of coin cells
- One of the 3 largest producers of coin cells worldwide
- Processes are continuously improved to achieve the high quality expected by our customers.
- In close cooperation with our customers, we develop and produce innovative, reasonably priced, environmentally friendly and high-quality solutions for wrist watches and industrial applications
- Renata has set a benchmark for the industry with its new concept and outstanding quality of 0% mercury silver oxide coin cells
- Cousins has a computerised "multi location stock rotation system" which ensures our products are sold on a first in, first out basis, ensuring items with a shelf life are always supplied fresh

Renata 3xx, Mercury Free, Strip

Renata 3xx - Mercury Free

Mercury Free (MF) Silver Oxide Batteries

Renata has developed its 0% mercury battery line in close cooperation with the Swiss Watch Industry. The new batteries were tested by various independent laboratories and approved by several important OEM customers. Most of the major luxurious Swiss Watch Brands rely on Renata.

Created with zero mercury and zero lead added, these batteries have been tested to be just as powerful as conventional watch batteries, while being more environmentally friendly.

For maximum power and sustainability, go green with Renata Mercury Free Silver Oxide Batteries.

- An optimised volume/capacity ratio
- Dimensional precision and stability
- High capacity retention on storage (low self-discharge)
- Excellent reliability thanks to a uniformly high quality level
- State of the art leak proofness thanks to a new sophisticated sealing process
- Constant availability

Renata's professional expertise is worth having on your side and in your watches.

Cousins has a computerised "multi location stock rotation system" which ensures our products are sold

RECHARGEABLE CAPACITORS & ACCUMULATORS

Casio Capacitors

Capacitors do not have charge in them when supplied as unlike a battery or rechargeable battery, they do not have chemicals inside creating power, capacitors purely store generated power for short term storage and use. This is why they are 'green' unlike conventional batteries.

SEIZAIKEN

Seizaiken 3xx - Mercury Free - Made in Japan by Seiko Instruments Inc.

Mercury Free (MF) Silver Oxide Batteries

Created with zero mercury and zero lead added, these batteries have been tested to be just as powerful as conventional watch batteries, while being more environmentally friendly.

Manufactured by Seiko instruments Inc., made in Japan Seizaiken batteries come with an already established reputation in Asia, America and Australasia as a highly reliable and highly popular watch battery. Fitted as standard for decades in all Hattori movements (as well as others) this is an already frequently used and sought after battery within the UK and indeed the world. Being mercury free, they also comply with all legislation and bring an exceedingly sought after green element to your reputation.

- Manufactured by Seiko instruments Inc
- Made in Japan
- Fitted as standard in many Japanese movements (as well as others)
- Excellent leak resistance made possible by the unique crimping structure
- Holographic trade watermark, bringing genuine peace of mind
- Mercury free
- Constant availability
