Certina Crowns by Size

Certina Crowns Ø3mm & Over

Certina - Crowns

- Dimensions:
 • Tap Size
 • Crown Diameter
 • Pendant Tube Diameter

The initials "DS" stand for "Double Security". This concept can be identified by the toughened case, a sapphire crystal and special seals in the crown the stem and case back. This process confers on the watch an exceptional resistance, even under extremely demanding conditions.

Code	Description	UOM	Price

Citizen Capacitors

Citizen Capacitors

Capacitors do not have charge in them when supplied as unlike a battery or rechargeable battery, they do not have chemicals inside creating power, capacitors purely store generated power for short term storage and use.

That is why they are 'green' unlike conventional batteries.

Citizen capacitors are charged by solar power whilst fitted in the watch.

ROYAL MAIL Destroying Parcels without

warning or Compensation:
Royal Mail now consider Lithium Batteries including capacitors as dangerous goods and will no longer carry them, they will destroy any packages containing them without warning. Alternate carriers are automatically available to you at the checkout stage of your order unless you are outside of the UK. Unfortunately due to aviation restrictions, we are unable to send lithium batteries or capacitors outside of the UK.

FOR CLARIFICATION:
Lithium batteries sent with a device there are restrictions, however lithium batteries not sent with a device is "Prohibited".

<http://www.royalmail.com/business/help/sending/prohibited-goods>

Section from the Royal Mail Website:
Batteries that are classed as dangerous goods by the latest edition of the International Civil Aviation Organization's (ICAO) Technical Instructions are prohibited. This includes wet spillable lead acid/lead alkaline batteries (such as car batteries), used alkaline metal, nickel metal hydride (NiMH), nickel cadmium (NiCd), zinc-air batteries, and damaged batteries of any type.

Lithium ion/polymer/metal/alloy batteries when not sent with, or contained in/connected to an electronic device, are prohibited.

Lithium ion/polymer/metal/alloy batteries are allowed when sent with or contained in/connected to an electronic device, but are subject to packaging, volume and quantity restrictions.

ETA Capacitors

ETA Capacitors

Capacitors do not have charge in them when supplied as unlike a battery or rechargeable battery, they do not have chemicals inside creating power, capacitors purely store generated power for short term storage and use.

This is why they are 'green' unlike conventional batteries.

Code	Description	UOM	Price
ETA2059114969	ETA 205-911 4969 Capacitor (MT920)	EACH	£16.25

Case Pendant Tubes

Case Pendant Tubes

All Rolex Generic case parts are manufactured in Switzerland to the original specification.

- Unless fitting with the Rolex tool, certain models will need the internal diameter of the pendant tube to be slightly broach out to allow the crown to fit.

KEY:

- A = Crown Thread Ø
- B = Case Thread Ø
- C = Overall Length

"Daytona" Tube Ø7.0mm (24.7030.0) Length 5.20mm

Seiko Capacitors.

Seiko Capacitors

- Capacitors are supplied without charge
- Instruction to charge are the same as at the point of sale of the watch.
- Once Capacitors become empty and stops it can take about 2500 shakes to make the watch work normally
- See website PDF for Seiko Kenetic charge up times

ROYAL MAIL Destroying Parcels without warning or Compensation:
Royal Mail now consider Lithium Batteries including capacitors as dangerous goods and will no longer carry them, they will destroy any packages containing them without warning. Alternate carriers are automatically available to you at the checkout stage of your order unless you are outside of the UK. Unfortunately to aviation restrictions, we are unable to send lithium batteries or capacitors outside of the UK.

FOR CLARIFICATION:
Lithium batteries sent with a device there are restrictions, however lithium batteries not sent with a device is "Prohibited".
<http://www.royalmail.com/business/help/sending/prohibited-goods>

Section from the Royal Mail Website:
Batteries that are classed as dangerous goods by the latest edition of the International Civil Aviation Organization's (ICAO) Technical Instructions are prohibited. This includes wet spillable lead acid/lead alkaline batteries (such as car batteries), used alkaline metal, nickel metal hydride (NiMH), nickel cadmium (NiCd), zinc-air batteries, and damaged batteries of any type.

Lithium ion/polymer/metal/alloy batteries when not sent with, or contained in/connected to an electronic device, are prohibited.

Lithium ion/polymer/metal/alloy batteries are allowed when sent with or contained in/connected to an electronic device, but are subject to packaging, volume and quantity restrictions.

When Corporatism leads to corporate governance failure, the case of the Swiss watch industry.

Available to buy as a paperback or free to download via our online pdf link

£9.00
Ref: C48921

Quotes:

"Pretending to be Robin Hood while representing the establishment"

"the reliance on the "Swissness" premium also led to complacency"

"a state monopoly essentially fell into private hands and the consequences for the industry as a whole are felt to date"
