The watchmaker's blade for fast professional opening of watch cases

This unit replaces the experienced hand of the watchmaker and opens up the watch case just like the watchmaker's tool without damaging the cover and case of the watch. With this unit, opening up watch cases is possible even for apprentices. Ideal for the battery exchange service.

Advantages

- No danger of injury
- Blade is height adjustable for an optimal setting of the axis of rotation
- Suitable for spring cover wrist watches
- For frequent applications such as changing of batteries
