

ANTIQUE FINISHING

with eye catching results

Applying a Victorian look on jewellery after you have created a jewellery piece gives a feeling of character to the made item. One looks at it with fascination where it came from and you will find your friends and family questioning you about the piece you have created.

Popular ways to get an "Antique look" on your jewellery

No.2 Platinol Aging Chemical

Platinol puts an antique finish on silver and copper from grey to black. It does not have a potent smell as other oxidation fluids which makes it user friendly.
