# Making Jewellery for Him

*Tools for the Job, with easy to follow steps:*

## The Urban Style Bracelet

### Step 1: Forming Your Screws

With your chosen metal already formed into a bracelet style of your choice, it's time to create your 'screws'.

Use the disc cutter and jewellers hammer to cut your evenly sized and perfectly shaped screws.

**1. Disc Cutter** - Precision tool for cutting discs with ease and accuracy, Ref: D20869 @ ..... **£26.25**

**2. Chisel Hammer** - Used in a wide variety of metal working, Ref: H19525 @ ..... **£4.60**

### Step 2: Giving it the 'Screw' Look

Take your even discs and score them using the bent scribe, holding the disc firmly in place with the parallel pliers to give them an authentic look.

**3. Parallel Pliers** - Ideal for holding and gripping evenly, Ref: P4753 @ ..... **£17.95**

**4. Set of 3 Scribers** - For all angles and sizes, Ref: S31911 @ ..... **£4.35**

### Step 3: Styling

Solder your screw style discs onto your bracelet. To do this use your soldering third hand to hold your bracelet steady and your mini soldering torch and accessories to give it that authentic, urban look.

- 5. Soldering Third Hand** - Including transite board for heat resistance, Ref: S31899 @ ..... **£27.85**
- 6. Swiss Mini Soldering Torch** - Hand held and easy to use, Ref: M4184 @ ..... **£28.65**
- 7. Auflux Soldering Solution** - To prevent stains and marks, Ref: C4354 @ ..... **£11.95**
- 8. Flux Brush** - For an easy application, Ref: B9624 @ ..... **.95p**
- 9. Extra Long Soldering Tweezers** - With heat resistant grips, Ref: T31950 @ ..... **£1.75**
- 10. Insulating Paste** - Protect your 'screws' from oxidation marks, and solder joints, Ref: I0881 @ ..... **£5.95**
- 11. Silver Solder** - Use Extra Easy or Medium solder on alternate 'screws' to avoid melting joints already made.
  - Extra Easy, Ref: J9296 @ ..... **£5.65**
  - Medium, Ref: J9298 @ ..... **£7.85**
