

# Create your own... CUPOLA STYLE NECKLACE

'Cupola' derives from the latin term 'cupula' meaning 'domed structure'. It is often seen in churches, temples and mosques.

## Step 1 ~ Cutting your shapes

Using curved Gilbow shears, cut the disc to the desired size to form a circular pendant. Remember to remove any sharp edges using the appropriate file from the set.

- 1. Gilbow Curved Shears** - a jewellery industry favourite, Ref: C33148 @ ..... **£28.10**
- 2. Super Kit Set of 4 Needle Files** - 4 different shapes to cater for any angle, including pillar, half round, square and triangle, Ref: F32973 @ ..... **£3.95**

## Step 2 ~ Creating the domed effect

Place your cut disc over the appropriate sized dome on the wooden doming block. Using the correct sized punch from the set, firmly hammer the punch square on, into the disc and doming block. This will create the perfect dish effect.

- 3. Wooden Doming Block:**  
A great affordable hobbyist alternative to the more industry suited steel blocks, Ref: D31266 @ ..... **£11.95**
- 4. Goldsmiths Hammer:**  
A strong and sturdy tool, Ref: H19525 @ ..... **£4.60**
- 5. Wooden Punch Set:**
