-Apple Generic Milanese Watch Bracelets-

Daily Care Tips

1. Can't touch liquids frequently, such as sweat, perfume, chemical liquids etc.
2. If dirty during wearing, use soft-bristled toothbrush dipped in soapy water to wipe it gently, rinse with clean water, wipe with clean soft cloth.
3. Please clean the strap and put it back in seal bag/watch strap box if no in use, expose in air long time is easy to accelerate oxidation.

Attention

1. About stainless steel watch strap lifespan, if under normal use, silver stainless steel strap up to 12 month; Electroplate finished color up to 4-6 month, such as black, gold, rose gold, colorful etc; Spray paint finished color up to 3-4 month, such as rose pink, red, purple, leopard etc.
2. If user rub the strap frequently, or expose it to humidity or high temperature environment for long time, can accelerate the oxidation or discoloration of the strap easily.
3. Smart watch straps are quick-release and quick-change consumables, especially the spray painted or electroplated stainless steel straps which added surface color treatment technology. After the user wears it for a period of time, if there are scratches, paint peeling, discoloration etc, it will be considered as normal and general effects of use.

Thank you for your understanding.
