

Can't find the Chinese Movement you want?

We have a huge range of Chinese movements available on our website. Including document downloads of the 2018 Seagull Catalogue.

However, if there is a movement that you cannot match to any available on our website, then please follow these steps below via our 'How can we help?' gold tiles.

1. Under Product Support, click on the gold tile that says 'The item I need is not on the website. Can Cousins order it? >> I am looking for something else.'
2. Here you will be required to fill in the boxes and give as much information as possible.
3. Please include photos of the front and back of the movement.
4. Please include a photo of the watch dial to identify the sub dial features.

Once we have this information, we can ask the Chinese manufacturers if it is available.
