

# WATCH PARTS

## WATCH PARTS BRANDED

We have over 130,000 different parts listed on our website, we also have additionally available a vast stock of watch parts which are currently being added on a daily basis to enable full customer access & visibility to our stock holdings.

CANNOT find the part you are looking for?

Please use the "add Non Listed Item" functionality, firstly you will need to search for the part in the usual way within the correct brand category using the attribute search.

If your part does not appear you will be given the option to add it as a non listed item. We will process your request and provide a quote (if available) which will be published in your "Self-Serve" area via your "Dashboard" link at the top of every page.

All non listed item requests not only will show up in the watch brand search but will also appear as a specific quotation for you in your "Self-Serve" area once we have processed your request.

Citizen Movement Parts 1520 items listed on website

**Citizen Capacitors**

**Citizen Capacitors**

Capacitors do not have charge in them when supplied as unlike a battery or rechargeable battery, they do not have chemicals inside creating power, capacitors purely store generated power for short term storage and use. That is why they are 'green' unlike conventional batteries. Citizen capacitors are charged by solar power whilst fitted in the watch.

Cousins can deliver lithium batteries to European countries that have a courier service by road.

Unfortunately due to aviation restrictions on lithium batteries we are unable to send them to other overseas destinations.

ETA, ESA Movement Parts 6733 items listed on website

**ETA Capacitors**

**ETA Capacitors**

Capacitors do not have charge in them when supplied as unlike a battery or rechargeable battery, they do not have chemicals inside creating power, capacitors purely store generated power for short term storage and use.

This is why they are 'green' unlike conventional batteries.

Cousins can deliver lithium batteries to European countries that have a courier service by road.

Unfortunately due to aviation restrictions on lithium batteries we are unable to send them to other overseas destinations.

## Pendant Tubes

All Rolex Generic case parts are manufactured in Switzerland to the original specification.

- Unless fitting with the Rolex tool, certain models will need the internal diameter of the pendant tube to be slightly broach out manually to allow the crown to fit.

\*Rolex generic case pendant tube length 6.20mm (our code C33419) is manufactured to match directly with the original crown.

\*\*Rolex generic case pendant tube length 5.20mm (our code C8363) is a limited availability tube specifically made for past customers.

## Twinlock Tube Ø5.3mm (24.5300.0)

- Twinlock
- Part No: 24.5300.0
- Supplied with gasket No. C8422

**SEIKO****SEIKO****SEIKO**

Seiko Movement Parts 4400 items listed on website

**Seiko Capacitors.****Seiko Capacitors**

- Capacitors are supplied without charge
- Instruction to charge are the same as at the point of sale of the watch.
- Once Capacitors become empty and stops it can take about 2500 shakes to make the watch work normally
- See website PDF for Seiko Kenetic charge up times

Cousins can deliver lithium batteries to European countries that have a courier service by road.

Unfortunately due to aviation restrictions on lithium batteries we are unable to send them to other overseas destinations.

**Seiko 3023.5MZ (5M22, 3, 5, 5M42, 3, 5) (Maxell TC920S)**

- 3023.5MZ Seiko Capacitor (5M22, 23, 42, 43, 45)
- Replaces 3029-111,113

Code	Description	UOM	Price
30235MZ	Seiko 3023.5MZ (5M22, 3, 5, 5M42, 3, 5) (Maxell TC920S)	EACH	£8.50

**Seiko 3023.5MY (5M22, 3, 5, 5M42, 3, 5)**

- 3023.5MY Seiko Capacitor
- Calibres 5M22, 23, 42, 43, 45
- Replaces 3023.5MZ

Code	Description	UOM	Price
