## PRODUCT DESCRIPTION

Introducing the Pro-Lite Workbench, an affordable alternative for professional jewellers. Built from high-quality veneered plywood, this bench offers the durability and professional features of Durston's best-selling Professional Workbench at a more accessible price. Assembly can be completed in about an hour, provided all

pieces are laid out and ready in advance.

The Pro-Lite Workbench is crafted from veneered plywood, ensuring it is both sturdy and reliable while keeping costs down. It incorporates professional features such as a removable bench peg and mandrel holes, mirroring those found in our premium hardwood model. Enhanced storage solutions include three drawers and a spacious pull-out tray, providing ample space for easy tool access and organisation. The bench also features a pull-out work area and catch tray, maximising space efficiency with a rear shelf to keep your workspace organised. Additionally, the side-mounted tool holder offers convenient access to frequently used tools, helping to maintain a tidy and efficient work environment. This workbench is designed to meet the needs of professional jewellers looking for quality and functionality without breaking the bank.
