

Pivot Polishing Machine *Handrollimat*

with the tousandfold approved rotor.

In seconds, easily and quickly polishes all pivots from 0,3 to 3,6 mm including minute-gears from pendulum clocks, pocket-, and wristwatches, anchor pivots from pendulum-clocks with long fork and everything related to pivots.

- Measure the rough bung with the slide-rule and adjust the bung hook to the correct notch setting.
- Hold the piece with your fingers and, with the enclosed corner centering with your left finger, polish the piece 3 or 5 seconds with 2 rotations per second.
- The pivot is then finished and got a fine polish by the Widia-wheel.

The machine is sent in a wood box.

Size: 28 x 19 x 8 cm, Weight: 1,63 kg,
Imitation is not allowed.
